Jon here are a couple of things I noted.

1. Please include a legend for
 - a. an identifier for the y-axes on the LIF logs. Assume y is depth
 - b. define GRO/DRO/ORO and mg/kg and ug/kg
2. Can you add the 3-D images to figures 8A. Just a copy of the overall 3D presented on sheet 1B is fine.

Subject: Wilcox Refinery Property Graphic Results

The Wilcox property results have been posted to the EPAOSC website. I tried to incorporate as many of Katrina's comments as I could, but I will need to review them and make sure.
